Leap Frogs

Our classroom is located on the lower level of the building. You may park in the lower parking lot when dropping off and picking up. These children are 3 and 4 years old. There are two teachers in the room, with a ratio of 1 – 10. Our teachers are here to assist your child throughout the year as they learn many new and exciting skills. We concentrate on science, technology, engineering, arts, mathematics, language arts, large motor and manipulatives during our weekly lessons. We prepare them to move to the next classroom where their skills will be challenged socially and academically.

As the year goes forward there will be new adventures. Some may come easily and some may be more difficult. In September we evaluate each child to get a feel of how your child is doing and where they will need extra help. Our biggest areas of development is learning new skills such as scissors, holding a crayon, using glue bottles properly and learning to play well and get along with our friends. We also work on many academic skills during our preschool time and throughout the day. You will see a BIG change in the children in just one short year!

Here are some tips from the Lead teacher as you enter our Leap Frog room.

Drop off

- Use the lower level driveway
- Bring your child in, **put things in their cubby, sign them in, and have them wash hands, they may need your help on some days.**
- Take your child to the opening teacher in the room at the end of the hall to the left.
- Please make sure that you **talk to a teacher** so we know that your child is here for the day.
- Your child may want to wave goodbye at our large window.
